

HYDRANT FLOW DIFFUSERS

Keep the flow under control when flushing fire hydrants.

Avoid the washout of the surrounding soil.

Increase rapidity and security when flushing hydrants.

Keep traffic interruptions to a minimum.

Easy to handle and carry. Comes standard with 5 feet of 2.5" discharge hose & 2.5" QST female adapter.

Also available with a longer hose & different adapter.

DEFLECTION GAUGES

Logiball's deflection gauges use a nine arm design to make sure the pipe is accurately tested. All steel construction, their lengths are at least the nominal diameter of the pipe.

Available for 5% or 7.5% deflection from 6" to 18" pipe. Larger sizes available on demand.

Precisely machined proving rings are available for 5% or 7.5% deflection gauges.

ASTM or BNQ standard available.
