

LARGE FLOW-THRU RIGID CARRIERS

These carriers are commonly used to install short mechanical repair sleeves. Made from the highest quality SBR rubber and lightweight aluminium, they offer large flow-thrus and large wheels for easy movement down the pipe.

The rigid carriers are also used to install short CIP sectional repairs. Cores can be made from steel, aluminum or stainless steel.

Also available in high pressure version.

Product #	Pipe Size	Repair Sleeve Length	12"	18"	24"	30"	36"	Carrier Rubber O.D.
LP6X**	6" carrier length		18.5"	24.5"	30.5"	36.5"	42.5"	3 1/8"
