

# LOGIBALL REPROCESSING PLUGS

The Reprocessing Plug is a great tool for reprocessing the liner.

The 1/2" thick rubber sleeve, reinforced with multiple layers of fabric, is molded on an aluminum frame. Steel & SS construction are also available upon request.

Factory replaceable rubber sleeves.

Field tested and approved by relining contractors around the world.

MULTISIZE				
Product #	O.D.	Pipe Size	Flow-Thru	Length
